

FABRICOIL™

D U R A B L E

R E L I A B L E

R E S E T T A B L E

FabriCoil BASIC with a blue vinyl curtain, optional hood, optional vision panel.

Exceptional construction.

Painted, structural steel angle guides provide superior protection from side impact. Optional hood is roll-formed from hot-dipped galvanized steel for a finished look.

Increased rigidity.

Resilient aluminum wind beams decrease fabric deflection in windy and negative pressure conditions. Additional windbeams can be specified for higher negative pressure environments.

RESETTABLE - FabriCoil's easy resettability means no professional service calls.
DURABLE - Ideal for high traffic areas, FabriCoil offers proven Raynor durability.

FABRI COIL™

FabriCoil can withstand incidental collisions against the door fabric and bottom bar.

With many of the desired features of typical high-speed doors, FabriCoil offers excellent durability and reliability at an affordable price. Choose a tough vinyl curtain for interior applications or rugged polyurethane for interior or exterior uses.

Available with continuous-duty 1 HP gearhead operator and hand chain hoist.

E-Z Reset™

FabriCoil can be easily reset back into the guides, which means less downtime for employees and no costly service calls for replacement or repair.

Wireless safety edge.

If contact is made with the yellow safety edge, FabriCoil will automatically return to the up position. The connection of the edge to the operator is wireless and no call backs due to broken coil cords or cable reels.

Optional powdercoating.

Many of your FabriCoil door's metal components can be powdercoated in any of the 187 ArmorBrite™ colors to match any design scheme. Powdercoating is available on the hood, door guides, head plates and bottom bar.

Series MODEL	Maximum Sizes	Clearances	Curtain Material	Drive System	Curtain Colors	Guides	Warranty
FabriCoil BASIC	12' Width 14' Height	Sideroom 8 3/4" Headroom 32" Backroom 30"	Woven Nylon Reinforced Fabric	Motor or Chain Hoist	Orange Blue	Structural Steel	1-Year
